Soft sKills dIgitaL Learning for the ICT workforce

SKILL is the Erasmus+ project aimed at the developing the soft skills of ICT sectors workers!

Soft skills are becoming day by day more important for employees in all fields, also the most innovative ones. However, often, ICT SMEs do not have the resources needed to provide their staff with the needed non-technical skills.

THAT's WHERE SKILL PROJECT COMES INTO PLAY

WE WANT TO:

Identify soft skills shortages and knowledge gaps in the ICT sector

Develop a comprehensive soft skills curriculum

Providing students and trainers with innovative learning resources

Promote the importance of soft skills for modern companies

skill

WE AIM AT ACHIEVING THESE GOALS THROUGH THE RESOURCES DEVELOPED BY THE PARTNERSHIP OF SKILL, WHICH ARE:

Needs Analysis and Framework to fine-tune the project's results to the actual necessities of the audience

Training E-Learning Platform with Soft Skill Scenarios for Learners and Interactive Learning Materials

Soft Skills Curriculum for ICT Companies

Training Methodological Handbook
